EXPERIENCE

LACUNA TECHNOLOGIES, INC. | TECHNICAL LEAD, RESEARCH TEAM

Jul 2021 - Ongoing | Palo Alto, CA

- Led in-house research team of data scientists and ML engineers in building optimization and decision-making solutions for **multiple major US cities and airports**.
- Coordinated cross-functionally with engineering, product, and strategy teams to integrate technologies into existing systems and shape their future vision. Communicated critical insights and decisions to C-suite executives.
- **Bayesian inference** and **optimization** models for vehicle traffic at **Seattle-Tacoma Airport**; accurately estimated the efficacy of congestion management strategies and created an algorithm to improve congestion by up to 300% (1, 2).
- Designed a comprehensive optimization framework for **dynamic curbside allocation in downtown Seattle** (1)
- Gave multiple invited industry/academic talks, e.g., PacTrans 2022, TESC 2022, UFL Quarterly 2022, CPS-IoT 2023.

STANFORD ARTIFICIAL INTELLIGENCE LABORATORY | PHD RESEARCHER
